EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Mr. Harold Pezzner, on March 17, 2005.

The application has been amended as follows:

Claim 1, line 7, "selective" has been changed to --selectively--.

The following is an examiner's statement of reasons for allowance: The claims define a feeding device for a table saw wherein the worktable of the saw has a sliding board with two parallel grooves in which a first and second locking device are locked into the grooves for supporting a pushing rod. The first locking device passes through the pushing rod, and the second locking device passes through a moving seat, wherein the distance between the first locking device and the saw blade is shorter than that between the second locking device and the saw blade. Shiotani et al. (5,293,802) teaches a feeding device for a table saw wherein the worktable has a sliding board with two parallel grooves in which a first and second locking device are locked into the grooves for supporting a pushing rod. The first locking device passes through the pushing rod, and the second locking device passes through a moving seat, but does not teach the distance between the first locking device and the saw blade is shorter than that

between the second locking device and the saw blade. Boekenkamp (2,916,063) teaches a feeding device for a table saw wherein the worktable has two parallel grooves in which a first locking and second locking device move in the grooves and support a pushing rod, but does not teach a sliding board, locking devices locked into grooves, and does not teach distances between the locking devices and the blade. It would not have been obvious to use the references in combination with other prior art teachings to meet the claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Isaac Hamilton whose telephone number is 571-272-4509. The examiner can normally be reached on Monday through Friday between 8am and 5pm.
